

Quality. Service. Advice.

ABS is the world's leading genetics company for a reason. Our higher semen standards are recognised world wide. Our sire aquisition team is second to none. The process offers your cows a better chance at higher conception rates and better quality calves.

We also provide the best service, distribution and breeding advice.

ABS gives Brangus breeders the sires you want, the advice you need, and the quality and service you demand. Contact us to experience the difference.

Suhn's Distinction 331T48 (Next Step x Nimitz)

The Cattleman's Kind

- Excellent phenotype with balanced performance
- Safe to use on heifers
- Extra wide based, big topped
- Tidy sheath and prepuce
- Combines two of the breed's most elite cow families: 331 and 416
- Maternal line has generations of excellent udders
- Great disposition

Fall 2009 IBBA Estimated Breeding Values									
EPD	Birth Wt	Weaning Wt	Yearling Wt	Maternal Milk	Maternal M & G	SC	REA	% IMF	F.T.
Value	-0.7	23	45	21	33	0.2	.32	0	-0.05

CR Hombre 541T3 (Affirmed x Bright Side)

Performance, Soundness and Excellent Disposition

- Powerful weaning and yearling growth
- Very sound moving, excellent joint structure with more bone
- Positive carcass value with large scrotal
- Traces to the famed 416E cow and 541H8 cows
- Super gentle temperament

Fall 2009 IBBA Estimated Breeding Values									
EPD	Birth Wt	Weaning Wt	Yearling Wt	Maternal Milk	Maternal M & G	SC	REA	% IMF	F.T.
Value	2.7	45	70	9	32	1.4	.43	0.2	0.1

Suhn's Advantage 331T5 (Newt x BT)

Calving Ease and Maternal Advantage

- Pedigree stacked with multiple generations of low birth genetics
- Tremendous cow power behind this bull...331L2 and 302H6 are two of the highest income generating females of the breed.
- Clean sheath and coat; still holds muscle.

Fall 2009 IBBA Estimated Breeding Values									
EPD	Birth Wt	Weaning Wt	Yearling Wt	Maternal Milk	Maternal M & G	SC	REA	% IMF	F.T.
Value	-1.8	27	51	5	19	0.8	0.5	0	0.008

We believe in the future of Brangus.
