

GOING FORWARD

USE A LEGEND

CSONKA OF BRINKS 30R4

- ABS is proud to announce the addition of Csonka to our Australian Brangus line-up.
- Csonka has proven himself as a worldwide leader in power and propotency. He continuously produces cattle power and explosive growth; many have now become stud sires or top donors.
- Top 3% weaning wt, top 1% yearling wt, top 1% scrotal, top 5% marbling, top 4% rib eye area.
- Limited semen available. Act now to secure genetics from this legend.

OR THE NEXT GENERATION

CALVES BY BRAXTON OF BRINKS 392C36

- Braxton adds power, bone, thickness and marbling
- Breed to moderate cows to add growth, frame and muscle
- Will produce stout, rugged bulls with Brangus character

CALVES BY CB HOMBRE 541C3

- Hombre produces more "keeper" calves over a wide range of females
- Will add style, bone, capacity and thickness through their top and hindquarters
- Will improve average females, but has the potential to make donors or stud sires when mated to the top of your cow herd

CALVES BY SUHNS DISTINCTION 331C48

- Use Distinction to add milk and maternal traits into your cow herd
- Safe to use on heifers
- Softens power females into more functional cows
- Outcross to Transformer/Brightside and Lead Gun/Csonka/Singletary lines
